EDUCATION

Punjab University, Lahore

Bachelor's Degree in Data Science, (October – 2027)

EXPERIENCE

Campus Ambassador | Devsinc:

Jan 2025 – Continue

- Arranged Industry tours to minimize the gap between Industry and academia
- Organized workshops on AI/ML/Data Analysis to enhance student learning and practical exposure

Data Analyst | Fiverr:

May 2025 – Continue

- Completed 5 data analysis projects with an average client rating of 4.8/5.
- Specialized in data visualization, statistical analysis, and delivering actionable business insights

PROJECTS

Chicago Crime Analysis Dashboard/ Power BI Data Analysis <BI Developer>

- Utilized Pandas and NumPy for comprehensive data cleaning and preprocessing of large crime datasets
- Developed interactive PowerBI dashboards to visualize crime trends, patterns, and hotspots across Chicago
- Implemented advanced data visualization techniques to communicate complex crime statistics effectively.

Credit Card Transaction Analysis (Power Bi, Pandas, NumPy, MSSQL)

- Built dynamic reports to visualize transaction trends and weekly patterns with robust data handling
- Implemented advanced data visualization techniques to communicate complex crime statistics effectively.

Developers Survey Analysis Report (Power Bi, Pandas, NumPy, MSSQL)

- Analyzed developer survey trends with rich visualizations and optimized SQL-driven data processing
- Implemented advanced data visualization techniques to communicate complex crime statistics effectively.

Technologies and Languages

- Python, Java, C, C++, SQL
- Git, PowerBI, Matplotlib, Seaborn, MSSQL Server, MS Excel, G Sheets

Certificates

- Power BI Mastery – Coursera (Microsoft)
- Advanced SQL – HackerRank
- ETL & Data Analysis – Coursera (IBM)
